

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

(Attorney Docket No. 14214US02)

In the Application of:

Martin Lund

Serial No.: 10/665,648

Filed: September 19, 2003

**For: METHOD AND SYSTEM TO
PROVIDE BLADE SERVER LOAD
BALANCING USING SPARE LINK
BANDWIDTH**

Examiner: Man U. Phan

Group Art Unit: 2475

Confirmation No.: 6075

**Transmitted via the Office electronic
filing system July 16, 2010.**

**APPLICATION FOR RECONSIDERATION OF THE
DETERMINATION OF PATENT TERM ADJUSTMENT
UNDER 35 U.S.C. 154(b)
ACCOMPANYING THE NOTICE OF ALLOWANCE
(37 CFR § 1.705)**

Commissioner for Patents
P.O. Box 1450
Alexandria VA 22313-1450

Sir:

The applicant respectfully requests reconsideration of the Determination of Patent Term Adjustment Under 35 U.S.C. 154(b) (PTOL-85) accompanying the Notice of Allowance mailed June 24, 2010, ("the Decision") to the extent indicated in the following discussion and the enclosed modified version of the USPTO Patent Term Adjustment calculation on PAIR. This application for reconsideration of the Decision is being filed after the date of mailing of the Notice of Allowance and no later than the payment of the issue fee.

This application for reconsideration of the Decision is accompanied by the fee set forth in § 1.18(e) (\$200).

This application for reconsideration of the Decision includes below a statement of the facts involved in sufficient detail to allow the United States

Patent and Trademark Office (USPTO) to reach the correct patent term adjustment respecting the disputed items.

The Applicant's calculation shows that the correct patent term adjustment should be 1895 days.

The bases under § 1.702 for the adjustment are as follows.

Positive Patent Term Adjustment

Three Year Guarantee

(35 USC § 154(b)(1)(B))

The USPTO calculation of the patent term adjustment under the three-year deadline for issuing a patent after its filing date was 0 days. The Applicant disagrees with this determination because the patent term adjustment on this ground should instead be 1568 days, minus 334 days consumed by appeals, for a net adjustment of 1234 days.

Specifically, the enclosed modified version of the USPTO Patent Term Adjustment calculation on PAIR shows that:

- the actual filing date of the application was September 19, 2003,
- the third anniversary of the actual filing date was September 19, 2006,
- the USPTO projected in the DETERMINATION OF PATENT TERM ADJUSTMENT UNDER 35 USC 154(b) that the patent will issue on the first Tuesday preceding the 28th week after June 24, 2010 (the mailing date of the Determination of Patent Term Adjustment under 35 USC 154(b)), which results in a predicted patent issue date of January 4, 2011,
- the predicted patent issue date stated in the last point will be 1568 days after the third anniversary of the actual filing date, which is the appropriate patent term adjustment.

The patent term adjustment under the three-year rule was reduced by two appeals.

- review by the Board or a Federal court began on the date the first Notice of Appeal was filed, i.e. March 24, 2008,
- the time consumed by review by the Board or a Federal court ended on the date of (1) a Board of Patent Appeals and Interferences decision, a Federal court decision, or a Board remand, or (2) the date prosecution was reopened, i.e. October 24, 2008;
- the time consumed by the first appeal thus ended on October 24, 2008, after an interval of 214 days.
- review by the Board or a Federal court began on the date the second Notice of Appeal was filed, i.e. January 4, 2010,
- the time consumed by review by the Board or a Federal court ended on the date of (1) a Board of Patent Appeals and Interferences decision, a Federal court decision, or a Board remand, or (2) the date prosecution was reopened, i.e. May 4, 2010;
- the time consumed by the second appeal thus ended on May 4, 2010, after an interval of 120 days.
- The patent term adjustment under the three-year rule of 1568 days, reduced by appeal time of 334 days, is thus 1234 days.

Reductions in Patent Term Adjustment

Removing Overlap

- Two or more grounds of delay overlap from September 19, 2006, to May 9, 2007, totaling 232 days of delay.
- This overlap has been subtracted from the patent term adjustment in the enclosed modified version of the USPTO Patent Term Adjustment calculation on PAIR

Net Patent Term Adjustment

The changes requested by the Applicant to the USPTO patent term adjustment determination in the Decision are as follows:

Three Year Guarantee (35 USC § 154(b)(1)(B))

	Patent Term Adjustment (days)
USPTO Calculation	0
Applicant Calculation	1234

Reductions in Patent Term Adjustment

- **Removing Overlap**

	Patent Term Adjustment (days)
USPTO Calculation	0
Applicant Calculation	232

Conclusion

The Applicant requests modification of the patent term adjustment as indicated above. As shown in the enclosed modified version of the USPTO Patent Term Adjustment calculation on PAIR, the patent term adjustment proposed by the Applicant is thus 1895 days.

Please charge any fees or credit any overpayment of fees presently required to McAndrews, Held & Malloy, Ltd., Deposit Account No. 13-0017.

Respectfully submitted,

McANDREWS, HELD & MALLOY, LTD.
